DISINFECTANT TREATMENT

FOR HOUSING SOCIETIES AGAINST GERMS & VIRUSES

DISINFECTANT TREATMENT & SANITIZATION AGAINST GERMS & VIRUSES

IMPORTANT POINTS TO BE NOTED :-

1] Once the treatment is done please make sure that no one touches the chemical atleast for an hour as it might lead to allergies, reactions, etc. So members need to take precautions accordingly.

2] The chemicals used for treatment may smell like a sanitizer.

3] If any cleaning is planned it can be done just before the treatment.

4] No other type of cleaning to be done post the treatment.

5] Children should be kept away while the treatment is carried out.

6] Please inform society members well in advance about the treatment to avoid any inconvenience.

7] Please note this is a precautionary measure and not a guarantee that a person might not be exposed to virus. Your Safety is in Your hands. Anyone can get the infection outside the premises too.
